

Specialist surgical instruments from around the world

CEV 405 Johann Grasping Forceps; fenestrated, atraumatic jaw 20mm; 5mm Ø

SIGH, together with its daughter company, Caterham Surgical Supplies, are U.K. distributors for some of the leading ranges of specialist surgical instruments from around the World.

Contact SIGH for a wide range of general surgical instruments for most specialities and for **MicroFrance** laparoscopic instruments.

SIGH also provide scissors, dressing, artery and dissecting forceps, rongeurs and ENT micro instruments.

Contact Caterham Surgical Supplies for:

Lawton general instruments

Riley instrument trays

Bowa leads and finger switches

You can reach SIGH and Caterham Surgical Supplies on the following LOCALL telephone number: **0845 310 1103**. All calls charged at local rates.

High quality fibre optic light cables

Universal fibre optic cables with adaptors for all light sources and instruments. Up to 35 possible combinations.

- 6', 7.5' and 9' lengths
- 1,2,3,4,5 and 7mm diameters

- Special lengths available
- Colour range: Grey, Pink, Purple, Blue, Black, Red, Green and Gold
- All light source and instrument ends
- Autoclavable

■ Prices for a complete cable, light source and instrument adaptor assembly start at just **£225** plus carriage and VAT

Bipolar and Monopolar Leads

Manufactured by **BOWA Electronic GmbH**, who use the technology they have developed to make the electrical cabling for BMW and Volkswagen cars. These cables, in their distinctive grey colouring, are **SEALED UNITS** and so avoid fluid ingress which is the chief cause of cable failure and deterioration.
